

July 2003

Accredited Home Health Services is pleased to announce the opening of our office in Los Angeles. Due to the closing of Cedars Sinai's Home Care Program, Accredited has employment commitments from many of their nurses, therapists and office personnel. By accomplishing this we are able to keep this highly qualified, professional group of clinicians together, and allow a virtually seamless transition of home care to Accredited.

We are excited to welcome the many clinicians and office personnel who have already joined the 'Accredited Family'. We are confident that we can continue to provide quality home care services similar to what you have experienced in the past.

As an individually owned company, Accredited Home Health Services has been providing home care throughout Los Angeles since 1980. We are unique in that we also provide nurses aides, companion care and a Durable Medical Equipment Division with a fully stocked showroom that is open to the public.

Accredited Home Health Services has aligned itself with almost every insurance company, HMO, and major medical group throughout Los Angeles. We have enclosed a list of our contracts for your reference along with brochures describing our array of services.

I invite you to call our office with your next Home Health or Durable Medical Equipment referral. If you would like further information please feel free to call me directly at (800) 974-1234. We look forward to working with you and your staff in the future.

Sincerely,

Barry R Berger  
President
