Non-skid Slippers

Ideal for patients who cannot wear full support footwear. Skid-free to help prevent falls.

Hip protection Garment

For fall risk patients, it is designed to absorb the shock to the hip caused by a fall. Easily worn under clothing, it reduces the likelihood of fracture.

Gait Belt

For patients requiring transfer or ambulation assistance, this item prevents caregiver back injuries and assists in safe patient transfers.

Lift Chair

For patients requiring assistance with standing from a seated position, the electric seat gives just the right amount of lift.

Cane

For patients requiring light assistance with walking and balance, this item provides steadiness and offers weight bearing support.

QR Powder

Effective for patients using blood thinners (post-surgery). Forms an instant seal that stops bleeding and protects against infection and contamination.

Wheelchair

For patients that have lost weight-bearing capability and have difficulty ambulating, this item promotes mobility while increasing safety.

Walker

For patients requiring assistance with balance and mobility, this item provides stability and safety while maintaining independence while ambulating.

Crutches

Decreases weight bearing on an injured extremity during ambulation. Requires upper body strength and overall balance but is relatively easy to manage with greater flexibility.

Uplift Seat Assist

Self-powered lifting cushion assists a patient gently up and down from an armchair or sofa. Transferring is stable and safe while reducing exertion and stress.

Walker

For patients requiring assistance with balance and mobility, this item provides stability and safety while maintaining independence while ambulating.

Gait Belt

For patients requiring transfer or ambulation assistance, this item prevents caregiver back injuries and assists in safe patient transfers.

Wander Alarm

To prevent a patient from wandering outside of the home, this product attaches an alarm unit to a door frame so that when the door is opened, an alarm sounds.

Incontinence Supplies

Accredited Medical Equipment & Supply carries a complete line of adult diapers, briefs, bedliners, disposable underpads, skin creams, odor eliminators, and disposable gloves.

Ready Bath Bathing Systems

Decreases the chance of contamination by eliminating water washing. Reduces infection control risks associated with soap and water basin use.

Remedy 4-in-1 Body Cleanser

No-rinse foam for head-to-toe cleansing, conditioning, protection from transepidermal water loss and skin nourishment. Also helps eliminate odor.

Wheelchair

For patients that have lost weight-bearing capability and have difficulty ambulating, this item promotes mobility while increasing safety.

Safety Rails

Accredited provides a variety of safety rails that can be attached to almost any surface. Safety rails provide additional support and stability for patients faces with mobility and balance challenges.

Gap Fillers

Designed to prevent painful skin pinching and side rail injuries due to body part entrapment, this device fits any hospital bed fitted with side rails.

Gel Cushion

For patients at risk of developing sores or requiring posture support, this item maximizes patient comfort while preventing pressure ulcers.

Heel Protectors

Designed to prevent skin breakdown and friction burns while promoting air circulation for healthier skin around the foot.

Ready Bath Bathing Systems

Decreases the chance of contamination by eliminating water washing. Reduces infection control risks associated with soap and water basin use.

Haloshield Sheets & Pillowcases

Designed for patients at risk for infection, these sheets are made with a chlorine bleach -- the world's best antimicrobial. When laundered, sheets become fully "charged" for maximum kill power.

Remedy 4-in-1 Body Cleanser

No-rinse foam for head-to-toe cleansing, conditioning, protection from transepidermal water loss and skin nourishment. Also helps eliminate odor.

Disposable Oral Swabs

Treated swabs promote general oral care and assist with removal of oral debris. Elongated stem prevent touch-contamination. Ideal for individuals experiencing difficulty in maintaining good oral hygiene.

Biotene Mouthwash, Moisturizer and Toothpaste

For those experiencing poor oral hygiene, these items replenish natural saliva to fight growth of harmful bacteria, while neutralizing odor and reducing the risk of mouth sores.

Wheelchair

For patients that have lost weight-bearing capability and have difficulty ambulating, this item promotes mobility while increasing safety.

Lift Chair

For patients requiring assistance or having difficulty standing from a seated position, the electric seat lift mechanism assists without the need of another person's help.

Cane

For patients requiring light assistance with walking and balance, this item provides steadiness and offers weight bearing support.

Wheelchair

For patients that have lost weight-bearing capability and have difficulty ambulating, this item promotes mobility while increasing safety.

Transport Wheelchair

This lightweight variation of the traditional wheelchair folds and fits easily in the trunk of any passenger. Perfect way to introduce an otherwise homebound patient to daytrips and outdoor recreation.

Walker

For patients requiring assistance with balance and mobility, this item provides stability and safety while maintaining independence while ambulating.

Uplift Seat Assist

Self-powered lifting cushion assists a patient gently up and down from an armchair or sofa. Transferring is stable and safe while reducing exertion and stress.

Power Scooter

Our motorized power scooters feature a tighter turning radius and easy to maneuver hand controls, making them a practical ambulation solution both indoors and out.

Pulse Oximeter

Monitor the saturation level of oxygen in the blood on a regular and ongoing basis, without painful needles or obtrusive procedures.

Blood Pressure Monitor

Allows you to eliminate guesswork and monitor your loved one's blood pressure on an ongoing basis. Safe and easy to use.

QR Powder

Effective for patients using blood thinners (post-surgery). Forms an instant seal that stops bleeding and protects against infection and contamination.

Remedy Skin Repair Cream

Prevents skin breakdown by restoring and maintaining skin's natural moisture balance while delivering vital nutrients to the skin.

Medseptic

Recommended by the Foot & Ankle Institute for Diabetes to help retain skin moisture on the feet, ankles, elbows and hands.

Disposable Oral Swabs

Treated swabs promote general oral care and assist with removal of oral debris. Elongated stem prevent touch-contamination. Ideal for individuals experiencing difficulty in maintaining good oral hygiene.

Biotene Mouthwash, Moisturizer and Toorhpaste

For those experiencing poor oral hygiene, these items replenish natural saliva to fight growth of harmful bacteria, while neutralizing odor and reducing the risk of mouth sores.

IQ Glucose Monitor, Lancets & Test Strips

For patients requiring transfer or ambulation assistance, this item prevents caregiver back injuries and assists in safe patient transfers.

Lancing Device

Critical to home blood sugar level testing is obtaining a good, clean lance of the skin. Painless, easy to use, and no mess.

Count-a-dose

Assists in accurately filling 0.5cc insulin syringes for visually impaired diabetics.

Insulin Case

Insulated case keeps cooler pack cold for up to 16 hours. Cooler holds 2 insulin bottles and pockets for syringes, rep pads, etc. Comes with 2 coolers.

Diabet-X Skin Care/Sharps Container/Diabetic Socks/Glucerna

Special selection of diabetic Body Wash, Antifungal Skin Treatment and Callus treatment.

Telescoping Self-Exam Mirror

Assists diabetics requiring daily foot care exams, skin care monitoring and examination of all hard-to-see areas. Two-sided, shatter-resistant mirror.

Alcohol Prep Pads

Prepares the skin for injection or lance so as to prevent infection
