Home Healthcare Loans

Many Californians have difficulty accessing home healthcare services due to lack of insurance, limited coverage or gaps in Medicare. The Kopelove Home Healthcare Loan Fund is a million-dollar program for families in need of short-term home care for children, parents and spouses. Loans averaging \$5,000 are available for:

- Nurses
- In-home Care Providers
- Companions
- Durable Medical Equipment & Supplies
- Medical Home Improvements including ramps and railings
- Respite for caregivers

Home healthcare is a cost-effective alternative to extended hospital stays, but still an expensive undertaking. Interest-free loans can assist those who are uninsured or underinsured, have to meet a deductible, are awaiting reimbursements or who opt to be a primary caregiver.

For more information about the Home Healthcare Loan Fund, visit www.jfla.org or call (323) 761-8830
