

FREE Lifeline with Home Care Services

Accredited Nursing Care, one of Southern California's largest home care agencies – with more than 28 years' experience – has teamed up with **Philips Lifeline Medical Alert Service** to offer affordable home care and client supervision 24 hours a day!

Caring, compassionate home care

Since 1980, Accredited continues to provide the finest in-home attendant care at affordable rates. With six offices, we service all of Los Angeles & Orange Counties, along with eastern Ventura County and western San Diego County. In addition to attending to clients' day-to-day non-medical needs, our caregivers become the eyes and ears for family members & physicians.

Lifeline fills the after-hours void

Even though a client may not receive 24-hour/7-day a week care or supervision (especially due to limited financial resources), we remain concerned for our clients' safety and well-being throughout the day and night. Therefore, Accredited has created a reliable, effective safety net: **FREE LIFELINE SERVICES** -- personal emergency response available at the push of a button! Lifeline provides greater peace of mind while contributing to a safe home environment.

PHILIPS
Lifeline

Our winning combination is the most affordable solution

When a client schedules new services (20+ hours per week), the Lifeline Medical Alert Service will be included at **no additional charge!** We'll waive the installation fee (a \$75 value) and the monthly charges (\$40 per month) for as long as the client remains on service. If home care services are no longer required, clients may opt to continue the Lifeline rental or we will pick up the unit at no charge.

To schedule home care services and receive **FREE Lifeline**,
