

The Accredited Family
of Home Care Services

Your comprehensive at-home MANAGEMENT PLAN

CONTROLLING YOUR *DIABETES*

Stabilization of blood sugar levels and frequent monitoring, along with the proper combination of diet, exercise and medication, are keys to controlling diabetes. *The Accredited Family of Home Care Services* can help you develop a healthy daily in-home routine to best care for your body and lead a full and normal life.

ACCREDITED HOME HEALTH SERVICES: *Visiting skilled nurses & therapists*

Licensed nurses will provide information about the management of Diabetes and proper nutrition. They will monitor medications and train family members how to correctly use a glucometer to test blood sugar levels and how to administer insulin. They will educate about proper foot and skin care to enhance blood circulation and prevent skin breakdown. They will also monitor and treat any chronic wounds.

ACCREDITED NURSING CARE: *One-on-one in-home attendant care*

In addition to providing assistance with Activities of Daily Living (ADL), Accredited's caregivers can provide one-on-one assistance with:

- Preparation of diabetic-friendly meals
- Monitoring condition of skin & lower extremities to prevent skin breakdown, ulcers and related injuries
- Ensure proper oral hygiene to prevent gum disease (common to diabetics)

ACCREDITED MEDICAL EQUIPMENT & SUPPLY: *Door-to-door delivery*

Our full-service medical equipment division delivers the following and more:

- Glucometer, Test Strips and related blood sugar monitoring supplies
- Diabetic socks for proper care of extremities
- Power Wheelchairs and Scooters
- Forearm Crutches
- Diabetic lotions and creams for proper skin care

*Make us your family's one resource
for all its home healthcare needs!*
