ACCREDITED HOME HEALTH SERVICES: *Visiting skilled nurses & therapists*

Licensed nurses will educate family about risk factors leading to Heart Disease, prevention measures and the importance of early detection; they will monitor medications and establish a medication regime; and they can provide post-surgical in-home care.

Physical therapists can conduct a home safety inspection and recommend home medical equipment to assist with Activities of Daily Living (ADL), which include ambulation, bathing, continence, dressing, eating, transferring and toileting. They can also supervise a regimen of strengthening exercises following cardiac surgery.

Medical social workers evaluate community resource needs, coordinate services and provide counseling for the patient and family.

ACCREDITED NURSING CARE: *One-on-one in-home attendant care*

In addition to providing assistance with meal preparation, transportation to doctor's visits/other appointments, and with Activities of Daily Living (ambulation, bathing, continence, dressing, eating, transferring and toileting), our caregivers can provide one-on-one assistance to:

- Increase patient compliance with dietary and/or lifestyle changes
- Supervise prescribed exercise/physical therapy activities
- Ensure proper supervision and act in the event of an emergency. All of Accredited's caregivers have been trained in both First Aid and CPR.
